

# MADHUSAMBA DOMMISI

Senior IT & DevOps Professional | AWS Cloud | 9+ Years Experience

madhusamba@gmail.com | +91 9573193319 | Hyderabad, India | Open to: Hyderabad · Bangalore · Chennai · Remote

---

## PROFESSIONAL SUMMARY

---

Results-driven Senior IT & AWS DevOps professional with 9+ years of experience across cloud infrastructure, DevOps engineering, and IT operations in pharma and technology sectors. Currently driving IT operations at Ceyone Life Sciences, with proven expertise in leading large-scale cloud migrations (Heroku 2192 AWS EKS), designing self-healing Kubernetes clusters, and building GitOps-based CI/CD pipelines that improved deployment reliability and reduced infrastructure costs by 30%. AWS Certified Solutions Architect with deep skills in Terraform IaC, Docker/Kubernetes, GitHub Actions, and full-stack observability (Prometheus, Grafana, Datadog). Strong background in enterprise networking and brings additional security and operational discipline.

## KEY ACHIEVEMENTS

---

- Reduced infrastructure costs by 30% through cloud right-sizing and optimization after Heroku → AWS EKS migration
- Improved system uptime to 99%+ by migrating legacy applications to self-healing Kubernetes clusters on EKS
- Cut production incidents by 50%+ by building automated rollback pipelines via Argo CD and GitOps workflows
- Delivered zero-downtime deployments using GitHub Actions + ECR + Argo CD with health-check gates
- Awarded Star Performer of the Quarter – Q1 2024 for delivery excellence at Revolution Entertainment Services

## CORE TECHNICAL SKILLS

---

**Cloud & IaC:** AWS (EC2, EKS, ECS, VPC, S3, RDS, ALB/NLB, Route 53, IAM, CloudWatch, Security Hub, Secrets Manager, KMS) · Terraform · Ansible · Azure AD

**Containers & Orchestration:** Kubernetes (EKS, AKS) · Docker · Helm · Argo CD · HPA · ECR · Zero-downtime Deployments

**CI/CD & DevSecOps:** GitHub Actions · Jenkins · Azure DevOps · GitOps · Trivy (Container Scanning) · SonarQube (SAST) · IAM Hardening

**Monitoring & Observability:** Prometheus · Grafana · Datadog · CloudWatch · SNS Alerting · InfluxDB · SLA Management

**Networking:** VPC · Subnets · NACLs · Security Groups · IGW · NAT · VPN · VLANs · Sophos & FortiGate Firewalls · CCNA

**Scripting & Databases:** Bash · Python · YAML · RDS (PostgreSQL) · DynamoDB · MongoDB

## PROFESSIONAL EXPERIENCE

---

### Senior Executive – IT Operations

Jan 2026 – Present

#### Ceyone Life Sciences | Visakhapatnam

- Managing end-to-end IT operations and cloud infrastructure for a life sciences organization, ensuring high availability and security compliance
- Overseeing AWS cloud environment, network administration, and IT systems to support business operations and regulatory requirements  
Deployed applications via Kubernetes manifests (Deployments, Services, ConfigMaps, Secrets) and Helm charts
- Configured AWS ALB Ingress Controller and ECR for container image management; implemented HPA for dynamic scaling
- Performed zero-impact cluster upgrades; integrated centralized logging and monitoring via Prometheus and Grafana
- Coordinating IT support, vendor management, and infrastructure planning to optimize performance and reduce operational costs
- Implementing security policies, access controls, and monitoring solutions to maintain data integrity and compliance standards

## **AWS DevOps Engineer II**

*Oct 2022 – May 2025*

**Revolution Entertainment Services Pvt. Ltd. | Hyderabad**

### **Cloud Migration: Heroku → AWS EKS (Flagship Project)**

- Led end-to-end migration of production applications from Heroku to Amazon EKS, improving scalability, deployment flexibility, and operational control
- Containerized Heroku-based apps using Docker, replacing build packs with custom Kubernetes-optimized images
- Implemented Argo CD GitOps-based continuous delivery with declarative config and automated rollback capabilities
- Migrated secrets from Heroku to AWS Secrets Manager, eliminating plaintext credential exposure across environments
- Replaced Heroku Postgres with Amazon RDS using pg\_dump + logical replication, achieving near-zero downtime during cutover
- Built secure CI/CD pipelines using GitHub Actions + ECR + Argo CD with health-check gates and zero-downtime deployment strategies

### **Kubernetes & Infrastructure Management**

- Designed and managed production-grade EKS clusters using Terraform; configured VPC, subnets, security groups, and IAM roles
- Deployed applications via Kubernetes manifests (Deployments, Services, ConfigMaps, Secrets) and Helm charts
- Configured AWS ALB Ingress Controller and ECR for container image management; implemented HPA for dynamic scaling
- Performed zero-impact cluster upgrades; integrated centralized logging and monitoring via Prometheus and Grafana
- Built reusable Terraform modules for VPC, EC2, ASG, ALB/NLB, EKS, node groups, and IAM — with remote state in S3 + DynamoDB
- Monitored infrastructure with Prometheus, Grafana, Datadog, and CloudWatch; ensured SLA compliance and high availability

## **AWS Cloud Engineer & IT Executive**

*Jun 2020 – Oct 2022*

**Lee Pharma Ltd. | Visakhapatnam**

- Provisioned and maintained AWS infrastructure: EC2, VPC, Security Groups, Auto Scaling, RDS, ALB for multi-tier pharma applications
- Managed Azure AD users and Office 365 environment with RBAC, authentication policies, and security compliance
- Configured enterprise networking: routers, VLANs, VPNs, WAPs; administered Sophos and FortiGate firewalls
- Administered endpoint security, patch management, antivirus; monitored logs and security alerts for compliance
- Maintained data integrity with monthly backups from lab instruments (HPLC, GC, IR, UV) per pharma regulatory requirements

## **IT Supervisor**

*Sep 2016 – Dec 2017*

**ELITE Enterprises | Visakhapatnam**

- Managed LAN/WAN networking, DHCP, and system administration across Windows and Linux environments
- Installed and configured operating systems, MS Office suite, domain/workgroup systems, and endpoint security
- Maintained CCTV, biometric access controls, printers, and IT assets for the organization

## **CERTIFICATIONS**

---

- AWS Certified Solutions Architect – Associate (SAA-C03)
- AWS Certified Cloud Practitioner (CLF-C01)
- CCNA – Cisco Certified Network Associate (Routing & Switching)

## **EDUCATION**

---

**Bachelor of Technology – Electrical and Electronics Engineering**

JNTU Kakinada
